Learn More About Financial And Tax Services

Call us or drop us an email or pay us a visit to discuss on a professional level, how it is possible to optimize financial or tax aspects of your business by using the opportunities open in the Kyrgyz Republic.

We can interact with business owners as well as their professional tax, legal and financial advisors at the development stage for a legal, tax or a financial solution.

We have a good number of already well researched and implemented legal and structuring solutions pertaining to different business or planning objectives. Therefore we welcome general questions too, such as «My company is engaged in this or that business, this is how much we pay in taxes, how can Kyrgyzstan be of help?»
